

License Review Classes:

The Department of Environmental Quality, in cooperation with listed educational institutions and wastewater industry professionals, presents workshops to assist wastewater treatment plant operators and trainees to prepare for the wastewater licensure examinations. Course dates, locations, registration requirements, fees, contacts and other pertinent information are provided. For information regarding a specific program, call the contact person listed in the schedule for that location.

Course Approval:

All wastewater programs listed in this announcement are conducted using course materials prepared by the Operator Training Program of the Department of Environmental Quality and approved by the State Board for Waterworks and Wastewater Works Operators and On-site Sewage System Professionals for use as substitution for required operating experience as permitted by Board regulations.

Classes taught at locations other than community colleges will earn training credits, but not college credits.

Cancellation:

All classes are subject to cancellation in the event of insufficient registrations. In the event a class must be cancelled, only those who have registered will be notified of the cancellation. **Persons traveling long distances to attend should confirm course availability prior to leaving home.**

Licensure Review Training Programs

Winter/Spring 2018

**Wytheville Community College
Wytheville Virginia**

(Internet Web Site- <http://www.wcc.vccs.edu>)

**Operator Training Program
Water Permitting Division
Department of Environmental Quality
PO Box 1105
Richmond Virginia 23218**

Course Costs:

Fees are set by the host institution. ***However, fees are subject to change and the actual course fees are those in effect at the time you register for the program. All fees must be paid on or before the start of the class.***

Billing arrangements must be made through the host institution or agency prior the start of class. For additional information on billing or fees, call the contact person for the institution or agency. **Checks should be made payable to the host institution or agency.**

All wastewater licensure review classes require that participants have one set of the Basic Wastewater Licensure Review or Advanced Wastewater Licensure Review manuals (5th Edition). Some programs may require additional reference materials. The Basic and Advanced manuals can be purchased from the college bookstore. The Basic Wastewater Licensure Review and Advanced Wastewater Licensure Review manuals can also be purchased from the Department of Environmental Quality. For purchasing information contact the host institution or DEQ program contact.

Refunds:

The host institution's refund policy applies. If you are unable to attend after registering for a program contact the institution immediately for withdrawal and refund procedures.

Inclement Weather:

The inclement weather policy of the host institution or agency at which the program is held will be observed.

Course Registration:

All participants must register with the program host, unless otherwise stated. ***Most colleges require registrations and associated fees be submitted prior to the start of class.*** In some instances, colleges will allow registrations on the first day of class on a space available basis.

Since classes may be cancelled for lack of registrations, it is important to contact the host institution and register at least 5 business days prior to the first day of class.

Registration Questions:

To obtain college registration information call the college contacts listed for the college you wish to attend.

Water Treatment Training Programs:

The Department provides information on available water courses as a service to the sponsoring institutions and water plant operators. Contact the host institution to determine whether a water program is approved by the License Board.

Water Courses at Wytheville Community College require AWWA manuals "*Principles and Practices of Water Supply Operations, Water Sources, 3rd Edition*" and "*Principles and Practices of Water Supply Operations, Water Treatment, 3rd Edition*". Order from AWWA, purchase at WCC bookstore or bring copies with you or contact Lisa Lowe at WCC for additional information
